

**Wheelchair Recycling – MOBILITY Store
Warranty Information:**

WRP will provide an exchange of a “like piece of equipment” for equipment that does not function due to electronic failures. WRP will have discretion as to “like equipment” selection. An electronic failure is limited to the controls of the equipment and does not include the frame, wheels, batteries or motors. This warranty is good for 10 business days from the date of purchase. Customer agrees to install new batteries and complete trouble shooting session(s) with WRP staff as needed prior to exchange. All out of state shipping costs will be the responsibility of the customer. For in state sales, where the equipment was shipped, the customer is responsible for return shipping costs to the Mobility Store, and WRP to pay shipping costs back to the customer. Power lifts must be returned to WRP within 20 business days (any shipping costs at customer expense).
